## PROFESSIONAL OVERVIEW

I'm a passionate web developer with strong knowledge in both frontend and backend development. I've built real-world projects using React.js, Flask, and MongoDB. I enjoy creating clean, responsive websites and love solving problems with code. I'm comfortable working with APIs, databases, and deploying apps online. I'm always ready to learn new things and build useful digital products.

## PROJECTS

**Wallpapers-Hub**
React.js, Flask, MongoDB, REST API, GitHub, Hosting, Deployment
**Description:** A responsive wallpaper browsing web app with category-wise filters, Pixabay integration, and mobile/desktop tabs.
**Live:** wallpapershub.netlify.app | **Code:** GitHub

**Personal Portfolio**
React.js, Flask, MongoDB, REST API, GitHub, Hosting, Deployment
**Description:** This is the personal portfolio website of Vatsal Bairagi, showcasing his skills and projects in web dev.
**Live:** vatsalbairagi20.netlify.app/ | **Code:** GitHub

**School Website**
React.js, Flask, MongoDB, REST API, GitHub, Hosting, Deployment
**Description:** The official website for New Heights Public School. provides information about the school.
**Live:** nhps.netlify.app| **Code:** GitHub
